

The 13th China International Optoelectronic Expo

Publicity

OPTORUN Co., Ltd will join with Nanyang OPTORUN Equipment Co. Ltd (Nanyang OPTORUN for short) participate in the 13th China International Optoelectronic Expo which will be held in Shenzhen Convention & Exhibition Center China from Sep. 6 (Tuesday) to Sep. 9 (Friday), 2011.

OPTORUN will exhibit the following contents:

- 1 Precision optical coating system, providing the best coating solutions and its core part's large ion beam source and precision optical monitor system.

New type DBR vacuum coating machine which can improve LED brightness effectively; ITO coating equipment which features low losses, high transmittance and low resistance.

- 2 Touch panel's cover glass optical thin film techniques which include AS film, AR film, IR-Cut, hard film, etc.

Our position: No.9319 Precision Optics Pavilion International Zone Nine.

We are looking forward to your visit!
