## Financial Highlights (Consolidated)

## Strong Growth in Financial Results

- Smartphone optical thin film coater sales are high in North America. Total sales were further boosted by the contribution made by sales from new orders from China.
- Higher sales of LED optical thin film coaters and strong growth of sales of coaters for surveillance camera lenses and loT applications (biometric authentication, automotive components, semiconductors)
- Due to the impact of US-China trade friction and other factors, customer orders were significantly delayed, but signs of improvement are already evident.
- An increasing number of customers are seeking short delivery times, and it is essential to maintain close and detailed contact with them.
- Compared with the FY2019 forecasts, the 1Q achievement rate was $36 \%$ for ordinary profit and $43 \%$ for net profit.

## Orders Received and Order Backlog (Quarterly)

## Orders Received for 1Q FY12/2019

- The US-China trade friction had some impact, but there are some signs of improvement.
- The orders received breakdown consists of $50 \%$ thin film sputtering coaters and $40 \%$ vacuum deposition systems. Orders for new equipment accounted for about $10 \%$.
- In smartphone optical thin film coaters, orders from East Asian markets such as China and Korea are showing signs of recovery. Orders received for 3D and smartphone-back-glass deposition equipment were firm.
- In camera lenses, orders for high-performance deposition equipment from surveillance camera manufacturers in China were strong.
- Secured orders for loT (vehicle-mounted, biometric authentication, and semiconductors) and LEDs.

## Net Sales by Categories

- In 1Q, in addition to smartphone optical thin film coater orders in North America, we booked sales on new orders from China. IOT and LED optical thin film coater orders were also strong.
- Pressure from Chinese companies for speedy delivery and price reductions is strong.
- Working at mass production levels on technical completion and full-scale marketing of new equipment.

## Operating Profit (Quarterly)

## Operating Profit for 1Q FY12/2019

- Operating profit margin of $29.5 \%$ at a high level
- Cost ratio up slightly (+ $4.2 \% \mathrm{YoY}$ )
- SG\&A expenses ratio down due to the increase in sales (down 3.2\% YoY).
- Consolidated cost ratio is $57.5 \%$ and remains at a satisfactory level.
